EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Kuester (Reg. No. 34,367) on May 11, 2005.

The application has been amended as follows:

Please see appendix labeled "Examiner's Amendment."

Reasons for Allowance

2. Claims 5, 6, 8-15, and 43-52 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is BellSouth's Job Management Operation System (JMOS). As admitted by Applicant on page 3 of the response filed May 24, 2004, JMOS fails to disclose the details of a bidding process and the details of supervisory approval for billing variations. More specifically, JMOS discloses the job entry application, scheduling application, materials management application, and the interface for receiving updates (as recited in independent claim 5), further supported by Applicant's submission of the JMOS manual as Appendix A of the response filed May 24, 2004; however, JMOS does not expressly teach the incorporation of "a bid and award application executed by a computer for generating bid packages for a job and for receiving completed bids, wherein the bid and award application stores at least one previous bid that was made on the job and awards the job based on the at least one previous bid" and an interface, "wherein the interface includes a billing and reporting application for receiving input from the contractor as to completed tasks and billings, wherein if the billings vary from a billing expectation of the system, the variations are sent by the billing and reporting application to a supervisor for approval, wherein upon approval of the supervisor or no variations, the billing and reporting application prepares an invoice for payment." While these features are separately old and well-known in the art, the Examiner submits that the incorporation of the combination of all of the recited

features into one system for managing a single job (e.g., as part of the JMOS system) is not taught or suggested by the prior art of record; therefore, claim 5 and dependent claims 6 and 8-15 are deemed to be allowable over the prior art of record. Independent claim 43 recites a method claim corresponding to the same computer-executed functionality recited in claim 5; therefore, claim 43 and dependent claims 44-52 are deemed to be allowable over the prior art of record for the same aforementioned reason.

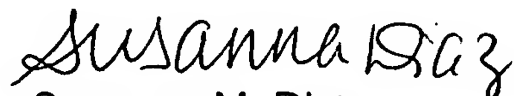

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susanna M. Diaz whose telephone number is (571) 272-6733. The examiner can normally be reached on Monday-Friday, 10 am - 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tariq Hafiz can be reached on (571) 272-6729. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
